Company Overview

Established in 2020, Pethers Painting & Decorating has grown from a hands-on residential painting business into an experienced team delivering structured, high-quality repaint projects across South East Queensland.

We deliver residential and commercial repainting and are structured to support body corporate and multi-residential projects. Our preparation methods, coating systems and products are selected for South East Queensland's coastal conditions, including salt exposure, humidity, strong UV and changing weather.

Clients value our clear communication, organised project delivery and professional team. Fully licensed and insured, we plan, supervise and complete every project to a consistent standard from initial consultation through to final handover.

About The Team

Ethan Pether

Managing Director

Ethan established the business after years of hands-on painting experience, with a focus on quality preparation and durable finishes for coastal homes. His leadership centres on clear communication, strong systems, and raising the standard of repaint work across South East Queensland.

Dirk Quinch

Operations Manager

Dirk oversees project readiness, daily workflow, quality control and final sign-offs. He brings structure to each repaint, supports the foremen and helps keep projects organised from pre-start through to handover.

Darren

Foreman

Darren values structure, clear planning and keeping projects moving according to schedule. He takes pride in coordinating the team, maintaining consistent standards and working through challenges to deliver a well-organised result.

Brendan

Foreman

Brendan is a practical and supportive leader who enjoys helping younger painters develop their skills. He focuses on teamwork, clear direction and making sure every stage of the project is completed properly.

Thafarell "Tuffy"

Foreman

Thafarell is an experienced all-round painter who particularly enjoys residential repainting. He is comfortable working in clients' homes and brings a calm, respectful approach while maintaining a strong standard of preparation and finish.

Our Values

Quality First

We believe the foundation of every good repaint is solid preparation, reliable systems, and consistent workmanship.

Clear Communication

Clients are kept informed from first contact to completion, with a strong focus on honesty, transparency, and reliability.

Team Growth

We invest heavily in developing our team, supporting their careers, building strong leaders, and creating a culture of learning and accountability.

Respect for The Home

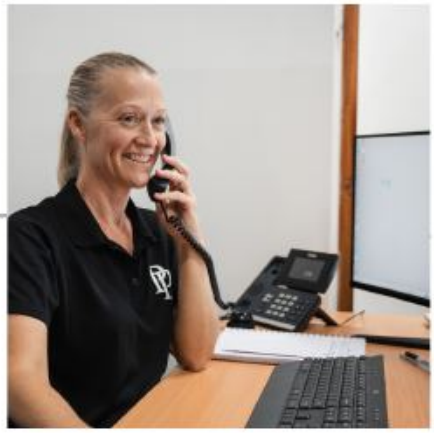

Every home is treated with care. We maintain clean job sites, protect surrounding areas, and work with professionalism at all times.

Coastal Expertise

We understand the challenges of Sunshine Coast living: salt, humidity, and harsh UV. Everything we do is designed to help homes last longer.

Process & How It Works Exterior Repaints

Initial Enquiry

Your first point of contact is our team.

We gather the key details about your project, discuss the areas requiring repainting and provide an initial indicative price before arranging a site assessment.

Site Visit & Assessment

Once the indicative price is understood, our administration team arranges a suitable time for an on-site assessment.

Our team inspects the property, reviews weathered or damaged areas and confirms the exact scope required to prepare an accurate proposal.

Proposal & Scope

Our team prepares a clear and structured proposal.

Your proposal outlines the preparation requirements, coating systems, areas included, colour schedule and payment structure.

The proposal is valid for 30 days.

Colour Consultation

Once approved, we arrange a professional colour consultation.

Eileen from In Style and Colour helps select colours suited to the property, surroundings and coastal conditions.

Scheduling & Pre-Start

A booking deposit is required to secure the project and open scheduling.

Our operations team confirms timing, access, colours and site details before the painting team arrives.

Site Set-Up & Preparation

At commencement, you meet your foreman and review the project requirements.

We protect surrounding areas, confirm access and safety, then complete washing, scraping, sanding, filling, rust treatment and priming for a sound base.

Process & How It Works Exterior Repaints

Painting & Application

Our employed team completes the repaint using the agreed systems and coatings.

Our team works methodically across all agreed exterior surfaces. The site stays organised, communication remains clear and the Operations Manager oversees delivery and quality.

Final Checks & Walk-Through

Quality checks are completed before final sign-off.

Your foreman completes a detailed inspection before the Operations Manager carries out the final operational sign-off. We then walk through the completed project with you and address any required touch-ups.

Clean-Up & Handover

The site is cleaned and the project is prepared for handover.

Protective coverings and equipment are removed, the site is cleaned and the property is left tidy. The final handover confirms the completed scope and includes care guidance for the new finish.

Preparing Your Home for an Exterior Repaint

Access:

Do we have clear access around all sides of the home?

Gardens:

Are gardens, plants, and bushes trimmed back from the walls?

Windows & Doors:

Can windows and doors remain closed during preparation and painting?

Pets:

Are pets secured during working hours?

Vehicles:

Are cars moved away from areas where overspray or dust may occur?

Water Access:

Is there access to outdoor taps for washing and preparation?

Power Access:

Do we have access to power if needed for tools or equipment?

Entry & Security:

Are we aware of any alarm codes, gate codes, or access instructions?

Surroundings:

Are outdoor items (furniture, pots, hoses, bikes, décor, etc.) moved away from work areas?

Weather Considerations:

Are there any irrigation timers, sprinklers or pool systems that need to be paused or adjusted during the project?

Frequently Asked Questions (FAQs)

Are your painters subcontractors or full-time employees?

All of our painters are full-time team members — we do not use subcontractors.

This allows us to maintain consistent workmanship, strong communication, and a unified standard across every project.

How long will my project take?

Timeframes depend on the size of the home, preparation requirements and weather. Your proposal includes an indicative timeframe, with expected start and finish dates confirmed once scheduling is finalised.

What paint products do you use?

We use premium products such as Haymes and Acryloc, selected for South East Queensland conditions including salt exposure, humidity and UV.

Do I need to be home during the repaint?

Not always. For exterior repaints, you do not need to be home throughout the project, provided access arrangements are confirmed before work begins.

Do you help with colour selection?

Yes. We organise a professional colour consultation with Eileen from In Style and Colour, who helps you choose colours suited to the property and environment.

How much preparation do you do before painting?

Preparation is one of the most important parts of our process. We complete washing, scraping, sanding, rust treatment, filling, and priming before any painting begins.

Will you protect gardens, driveways, and surrounding areas?

Yes. We cover and protect all surrounding surfaces, and our foremen ensure the site remains clean, tidy, and safe throughout the project.

What happens if it rains?

We monitor weather closely before and during the project. If rain is forecast, scheduling is adjusted and you are kept updated to protect the finish and avoid adhesion issues.

Do you specialise in coastal homes?

Yes, coastal repaints are our specialty. Our systems and products are designed specifically for homes exposed to salt, moisture, and UV.

Can you paint my roof as part of the project?

Roof restoration can be included where suitable. Roofing works are completed with our licensed roofing partner, with the scope and coating system confirmed in the proposal.

How do payments work?

A booking deposit is required to secure the project. Any applicable progress payments and the final payment are clearly outlined within the proposal.

Do you offer commercial repaints as well?

Yes. We are structured to deliver commercial, tilt-slab, shopfront, restaurant and body corporate repaint projects.

CLIENT RECOMMENDATIONS

5.0 ★★★★★

- **Isabel Cabrera**

We couldn't have asked for more professional, highly skilled and genuinely nice, caring painters for our deck job. Nothing was too hard for them. Their communication and respect for us and our property was excellent from the beginning to the end of the job. We loved their work so much, and felt so comfortable having them work on our property that we're getting another quote from them straight away. Ethan and his crew are a testament to a well run business, and obviously a reflection of the excellent standards set.

5.0 ★★★★★

- **Bill Colen**

We asked Ethan to paint the inside and the deck of our house before sale. He communicated well with us during the whole process. We asked his advice on how to make the house look attractive and we followed his advice with a great result. His staff too were curtious and helpful. We asked him to do a few extra items which he completed with no extra cost. Overall he did a great job, and I will be recommending Ethan and his team to all my friends.

5.0 ★★★★★

- **Martine Beard**

I can highly recommend Pethers Painting and here is why.

My husband and I first crossed paths with Ethan back in 2020. We were wanting to paint the beams in our newly built thatched hut. Knowing that it was going be a crappy job we trusted Ethan, then flying solo in the early days of his business. The result was amazing so we booked him in for a FULL EXTERIOR paint of our home. The quality of his work and attention to detail was far better than the build paint.

Our two most recent jobs have been a ceiling repaint to our kitchen family room due to water leeks around the Air Conditioner vents. Ethan took the time to investigate why this had happened and how to avoid this issue again. And lastly he repainted our black media room into a white TV room with a feature colour. I am more than happy with the results.

We can honestly say we trust Ethan in our home and to complete the work in a timely manner. His work is of the highest quality with great attention to detail. He is respectful, polite and a pleasure to have in our home. If you are looking for a team of painters don't hesitate giving Pethers Painting a call.

Martine & Darren - AKA very happy long term customers.

5.0 ★★★★★

- **Beverley Wilson**

Ethan and his team provide a professional, reliable and diligent service. Ethan provided us with sound advice and obviously is extremely knowledgeable on all aspects of painting. They have transformed our outdoor area with exceptional attention to detail and excellent workmanship. They treated our home with great respect, clearing up at the end of each day - leaving everything neat and tidy. I highly recommend Ethan for outstanding customer service, competitive pricing and skilled painting work.

5.0 ★★★★★

• **Amy C**

Highly recommend Ethan and his team. I recently had the exterior of my home painted, and I couldn't be happier with the results. The team was professional, punctual, and incredibly detail-oriented. The quality of the paint job is exceptional. House looks 100% better. Thanks to all the Pether's team
